

KEY-POD measurement & proving systems Ltd

IMOD Supplier No. 83-419777

Company Profile

KEY-POD Measurements & proving systems Ltd was founded in 2005 for the purpose of providing measurement solutions in fuel systems and in refueling installations. The company is specialized in testing of delivery points at Custody Transfer points, calibration and control thereof.

Company's activity is focused on the testing of delivery points at Custody Transfer points, calibration and control thereof of fuel and gas counters in delivery pipes between suppliers and customers, measurement, calibration and level control in exposed storage tanks as well as in underground positioned fuel tanks, warning systems and overflow preventive systems and fuel leaks.

Also, the company performs control and follow up on leaks from fuel and gas pipes, treatment of soils contaminated with fuels, treatment of contaminated water sources and detection of radioactive isotopes in solids and in liquids.

KEY-POD Measurements & proving systems Ltd is an independent organization, certificated to ISO 9001:2015 quality management system and certificated as a service laboratory by the Israeli Government, Ministry of Industry, Commerce and Employment Laboratory for Sizes and Standards, as well as by international institutions, e.g.: The National Metrology Institute of the Federal Republic of Germany - PTB and The International Organization of Legal Metrology - OIML.

The company employs in cooperation a displacement measurement laboratory certificated by the Israeli Authority for Certification of Laboratories, for calibration requirements in accordance with ISO 17025.

The company is active in initiation and in carrying out of integrated projects which include design of data collection systems, control and operation, maintenance and servicing thereof.

These include:

- Fuel counter systems
- LPG counter systems
- Level measuring in fuel storage tanks
- Testing and calibration of tanker vehicles
- Radio and wire data transfer
- Data analysis
- Energetic efficiency enhancement of pumping stations
- Operational control and economization
- Leakage control and warning for fuel pipes
- Fuel overflow and leakage from storage tanks
- Analysis and detection of radioactive isotopes in solids and in liquids

Ha'Kipod Measurements Ltd is not committed to any particular equipment manufacturer.

The company selects the type of equipment that is the most suitable for the application, taking in account working conditions, environmental conditions, legal requirements and customer requirements and needs.

Our team of professionals selects and recommends the equipment out of world leaders offering in the field of petroleum industry raw material and products – the most reliable equipment with reasonable price. The equipment manufacturers provide complete and comprehensive support and back up to our company as well as timely ones.

Ha'Kipod Measurements Ltd represents world leading companies in the field of measuring and control in the fuels industry and works in cooperation with these. Our company specializes in data transfer and control of fuel systems.

The combination of extended experience of over 25 years in the field of instrumentation, data transfer and analysis and control, allow for provision of reliable solutions, efficient and inexpensive ones.

Our company has performed, in cooperation with world leading companies, projects and control works in plants and entities, e.g.:

- Petroleum and energy Infrastructures (TaShan)
- Ashdod and Haifa Refineries
- Haifa Chemicals
- Eilat-Ashkelon Pipeline
- The Israel air Force – IAF
- Overseas projects with General Electric – GE
- The Dead Sea Works
- The Jordan Valley Water Company
- The Lower Galilee Water Company

And many more...

Our company provides services for the following:

- Consultancy in the scope of fuel systems, communication and control, for:
 - Design
 - Construction
 - Operation
 - Control
 - Handing over
 - Servicing and warranty

Extended information about our company can be viewed in our domain: www.key-pod.co.il
Additional information and a complete presentation will be provided in a meeting.

Sincerely,

Ran Sela, CEO
